

# Industrial Services

## On Target, On Time, On Budget

Calex Environmental, LLC is a full service consulting company dedicated to providing only the highest levels of quality environmental and occupational services to its clients. The Calex team of professionals have many years of servicing the industrial sector, many of them having “cut their teeth” working in industrial facilities. Having a “walked in your shoes” perspective provides Calex with a greater understanding of client needs in finding effective and practical solutions, maintaining schedules and cost efficiency throughout the project.

# Industrial Services

**Calex prides itself on being:  
“On Target, On Time and On Budget.”**

## Proven Capabilities

Unlike with some larger firms, you will find Calex to be a highly responsive and nimble organization. By selecting Calex, you will have direct access to respected senior technical professionals who are committed to attentive client service — and you will pay only for the expertise that you need.

## Cost Efficiency

Our careful selection of staff, efficient use of physical and professional resources, and creative teaming with experts in other fields keeps our overhead low while allowing us to efficiently respond to project needs.

## Results Oriented

The Calex team has a reputation for quickly assessing a client’s situation, thinking on our feet and getting things done. We will work with you at the project site, on the plant floor, or in the board room — wherever your task requires. At each project juncture, you will receive usable field data, clear verbal and written explanations, and actionable advice.
